

**KEC Energy Conservation and Efficiency Committee**  
**2-26-2007 Meeting**  
**Outline of Meeting Decisions, Outcomes**

I. Committee Purpose and Tasks

- A. The main purpose of the Committee is to recommend additional legislative, administrative, or regulatory policies for consideration by the full Council. Educating the Council and others on energy conservation and efficiency issues would be a byproduct of the Committee's potential policy recommendations.
- B. Convening a group of utility practitioners to share ideas about utility-based programs is likely to be beneficial. [However, as Michael and Liz discussed after the meeting, this is not a KEC function.]

II. KCC Generic Docket (247)

- A. Staff will assist Chair in synthesizing main issues and questions raised in the docket.
- B. Committee will prioritize and provide KCC with ranked list for individual determinations.

III. Potential priority topics for Committee to consider for policy recommendations (between now and June 6<sup>th</sup>)

- A. Real-time pricing and/or time-of-use pricing
- B. DSM potential for Kansas as a whole
- C. Additional energy efficiency disclosure
- D. Statewide residential and commercial building codes
- E. Issues for smaller utilities
- F. K-12 education
- G. Catalog of utility-sponsored programs
- H. Decoupling (also covered in KCC docket)
